## WRECK KILLS THREE

**Popular Engineer John Shegog  
One of the Victims.**

**A Male Derails a Freight Near Mor-  
ganfield on Evansville Dis-  
trict of I. C.**

## FIREMAN AND BRAKEMAN LOST

Engineer John Shegog, of Central City; Fireman William Manion, of Evansville and a colored head brakeman, C. Higgs, were killed about 1 o'clock this morning in a wreck on the Evansville division of the Illinois Central. The train was freight No. 358, and a mule on the track caused the engine and ten cars to be derailed and wrecked at Morganfield, near Morganfield, Ky.

The train was running south to Paducah and at Harding a mule ran across the tracks. Engineer Shegog tried to slow down and whistle the mule off but failed and struck the animal. The engine and cars were derailed and badly wrecked and the bodies of the three men killed were found in the debris. The local wrecker was sent out immediately after the accident to clear the track.

Engineer Shegog lived at Central City but had been running out of Paducah for some time. His fireman lived at Henderson and was also well known here.

Engineer Shegog was one of the best known and most popular young engineers on the road, and has many friends, as well as relatives, in Paducah. He was a young man of exemplary habits and one who stood so high in the estimation of the road that some time ago when he tendered his resignation because of a technical error the company declined to accept it.

It is told as a coincidence that when Engineer Shegog last left Paducah, his conductor jokingly remarked that if he, the conductor, should never come back, the road could get another man, but that if Engineer Shegog should never come back they could never fill his place, which shows how high the dead engineer stood among those who knew him.

Later details of the accident show that a mule had been caught in a cattle guard at a sharp curve. The engine when it struck the animal turned over and went down a steep embankment. William Manion, the fireman, was a brother of Mr. John Manion, the night ticket agent for the I. C. here. Mr. Manion did not learn positively that it was his brother until noon.

Four cars followed the engine down the embankment and Higgs and Fireman Manion were caught under the tender and crushed to death. Engineer Shegog, it is supposed, tried to jump and was crushed under the overturned engine.

The following party went to Central City today at noon to attend Mr. Shegog's funeral: Mr. William Mercer, Louis Walden, Mrs. Jennie Walden, John Gallaway, Ed McClure and wife and E. L. Shegog and wife. The funeral will probably be held at Central City tomorrow.

Mr. John Akin, Jr., formerly of this city, passed through the city today en route to Murray on business. Mr. Akin was night baggage man for the Illinois Central here for several months and is now working in the general freight offices of the I. C. at Chicago.

Mr. William Kellar, gardener of the Louisville division of the Illinois Central, is in the city today setting in the flowers at the depot lawn.

Illinois Central stock is this month quoted to officers and employees at \$1.37 per share.

## DROWNED IN A GALE

**Fifteen Out of Eighteen of Glor-  
iana's Crew Lost.**

**Ran Ashore During a Heavy Fog  
Off, Whale Cove  
Yesterday.**

## ARE ONLY THREE SURVIVORS

Casco, N. W. S., May 7.—The American fishing schooner Gloriana, Captain George A. Stoddard, of Gloucester, Mass., ran ashore during a thick fog on the cliffs at Whale Cove, near White Point, Liges, and a crew of eighteen men, fifteen including the captain, were drowned.

The Gloriana left the northeast bar on Sable Island bound for Casco. There was a heavy easterly gale blowing, with thick fog. When the Gloriana struck on the ledges it passed over the outer ones, but brought up on the inner reef, butted against a cliff of rocks and then fell off in the sea. When the vessel struck the cliff John Richards, Eugene Leblanc and Frank Nickerson were on deck, and they climbed up the cliff to a place of safety before a receding wave carried the vessel off again. Others of the crew who were below rushed on deck half clad and started to lower the dories. As soon as each boat touched the water it was crashed. Lines were thrown ashore from the schooner several times, but they were either broken or torn from their fastenings on the rocks by the surging of the vessel. Four of the crew jumped overboard and attempted to swim ashore, but they were caught in the breakers, dashed against the rocks and killed in the attempt. The others who were on the vessel took to the rigging, and clung there while their strength lasted but the enormous seas were more than they could battle against, and one by one they were swept away. The three men on the rocks could see their companions clinging to the rigging and hear their shouts for help above the roar of the sea, but it was impossible to do anything to save them.

The three survivors spent a terrible night on the cliffs. When day dawned they saw one man clinging to the rigging and made their way to the mainland for assistance. The shore folk hurried to the wreck and took the man from the rigging, but he was dead.

The place where the Gloriana was wrecked is only a half mile from the scene of the wreck of the steamer Tiber in February, 1902, when 22 lives were lost. The vessel is a total wreck. None of the bodies has been recovered.

**Hopkinsville Team to Play Paducah  
Professionals Sunday and  
Monday.**

## OTHER GAMES IN PROSPECT

There will be plenty doing in baseball circles this week and next, beginning with Sunday.

On Sunday afternoon the first professional game of the season will be seen here at the professional grounds between the Hopkinsville K. I. T. league team and the local professionals. This game will be followed by another Monday and Manager Jackson assures the public that excellent sport will be seen.

No date has been arranged with Huntington, Tenn., yet and it is probable this team will not visit Paducah for some time to come.

On Tuesday, Wednesday and Thursday the Henderson team will come here to play and the boys expect to take every game from the visitors. Jackson will visit here Sunday a week from next Sunday for a series of games and the local boys feel confident of victory. The grounds here are being more thoroughly worked and will be in excellent condition by Sunday.

### PHYSICIAN SUICIDES

#### PROMINENT YOUNG MAN OF MEMPHIS FOUND DEAD.

Memphis, May 7.—Dr. Stephen E. Rice, aged 30, a son of a well known Memphis family, a ripe scholar, a young physician of wide repute, a favorite in society, and withal a gentleman in the highest sense, is dead.

Alone in his room, a victim of despondency and despair, a pistol in his hand, a bullet in his brain, the pallor of death on his face—the facts pointed to but one conclusion, deliberate suicide.

The tragedy occurred yesterday afternoon in the front room of his mother's handsome residence at 361 Poplar street. The negro servant, the only other occupant of the house, was thrown into a frenzy of excitement when she heard the report of a pistol from the room where the physician had for several hours been pacing the floor.

Theories have been advanced to account for his suicide, but as far as anyone knows the true cause of the self-destruction is sealed in deathly silence. Dr. Rice gave no reason to anyone. With his demise the only hope of ascertaining the true reason is gone.

Mr. Robert Wilhelm of the Register has returned from St. Louis after an absence of two weeks.

## FEAR AND TREMBLING

**Outrageous State of Affairs at  
Jackson, Ky.**

**Officers of the Law Said to Remain  
Idle While Murder Is  
Committed.**

## OUTBREAK THREATENED DAILY

Louisville, Ky., May 7.—Special correspondents of the Louisville newspapers sent to Jackson, Breathitt county, to investigate the assassination of James B. Marcum, send back telegrams telling of an appalling condition of affairs there, and saying the condition is one that calls for heroic treatment.

The first step in that direction was taken by Governor Beckham, who has forced County Judge Hargis to apply to him for a reward, and has issued the largest reward in his power, \$500. Governor Beckham realized it was doubtful whether Judge Hargis would act, wrote him yesterday suggesting that if the local authorities had no clew that he apply to the governor for a reward. Judge Hargis made the request, and the reward was offered.

In spite of the action taken by Governor Beckham, the telegrams received from the correspondents sent to Jackson would indicate that unless some stronger action is taken the criminals will go unwhipped of justice. For years the county has been without a coroner, and County Judge Hargis alleges that he has asked some of the best people in the county to take the office, but all have refused. There has not been an inquest held in any of the recent cases.

As told in the special dispatches, the names of the murderers are known to nearly every one in Jackson, but they dare not breathe them for fear of adding to the number of "marked men."

The assassination was at close range and was witnessed by many, including the sheriff, Edward Callahan, who stood in Hargis' store and saw the assassin fire. But Callahan took no steps to apprehend the murderers. He excuses himself on the ground that he feared to go out, as he might himself be shot. Search for the assassins was made by a posse, consisting of Captain B. J. Ewin, a deputy sheriff and friend of Marcum, who was at his side when shot; E. H. Noble, Aubrey Spicer, S. S. Patrick and Mrs. Sarah Patrick, sister of Marcum and her daughter Florence. The posse searched the courthouse and obtained access to all the rooms save the courtroom, from which Jim Cookrill was killed, the office of County Judge Hargis and the office of Sheriff Ed Callahan. These offices were looked and admission was not to be had.

Such is the state of affairs. Of course, it may have been but a coincidence that these offices should have been vacated and looked just at the time of the assassination, and it may have been a coincidence that Sheriff Callahan showed cowardice and that County Judge Hargis declared it was useless to try to find the assassin, though he claimed to be willing to act if any one would swear out a warrant.

The best people of the county are afraid to express their views, yet all would welcome the impeachment and removal of the apparently negligent officials, and have a new deal all around. There is growing evidence that the Marcum assassination was the result of a plot.

## A RAILROAD SUIT SETTLED

### AMERICANS OPENLY HISSED.

San Francisco, May 7.—Reports received by the Pacific mail steamer Colon from Panama indicate that Gen. Emilio Chamorro, the conservative leader of Nicaragua, is making great progress against the forces of President Zelaya.

The report is brought from Nicaragua that Americans are openly hissed on account of the feeling against President Roosevelt, who is blamed for "not enforcing the Monroe doctrine" by preventing Great Britain and Germany from collecting their debts from Salvador and Nicaragua.

### AGREEMENT, BUT NO TRUST.

Chicago, May 7.—In answer filed in the United States circuit court the Indiana and Illinois coal operators, who were recently made defendants in a case started by the government, admitted that they had been acting for a time under an agreement, but denied that there was an unlawful combination to fix prices of their products. They declared the agreement was abandoned before the court proceedings were begun.

### SETTLED OUT OF COURT.

Union City, Tenn., May 7.—After examining three witnesses in the case of E. L. Brumwell vs. the Illinois Central railroad for \$10,000 damages the case was settled out of court, company paying the sum of \$2,000 to the children of William Smith, who was killed by a train on the Illinois Central at Trimble. The company also pays the cost of the suit. Brumwell was administrator for the Smith children.

### MARRIAGE AT HICKMAN.

Hickman, May 7.—Rev. G. O. Stogler, a Baptist minister, who has been conducting revival services here, was married to Miss Winnie Marshall of Olney, Tenn. The marriage ceremony was performed by Rev. T. Moore at the parsonage. Immediately after the ceremony they left for Savannah, Ga., to attend the Baptist convention.

### AN OLD-TIME FIGHT

#### UNOLE SAM'S MIDDIES SETTLE DIFFERENCES WITH BARE FISTS.

New York, May 7.—Midshipmen Wygant and Wallace of the battleship Kearsarge, who had been at odds ever since their ship left the southern drill grounds for this port, have settled their differences by a pugilistic encounter.

Shortly after the Kearsarge dropped anchor off Tompkinsville the midshipmen got shore leave, it is stated, and clad in their civilians' clothes called a closed carriage and drove to a secluded spot of Staten Island.

There were no seconds, the battle was fought in the darkness with bare fists and it is not known which was victorious. On the return they both exhibited faces badly bruised. They appeared to have reached an amicable settlement. As a result of the battle the "middles" are confined to their rooms. According to their brother officers they are on the sick list, but it is asserted that "sick list" is a mild term for compulsory confinement.

### WOULD NOT MARRY

White Girl's Friends Invoke Aid  
of Federal Government.

Indian Chief Attempted to Force Her  
to Marry Him.

Guthrie, Okla., May 7.—Who wants  
a pretty 17-year-old daughter? Ap-  
plications should be made to United  
States Attorney Horace Speed, at Guthrie.

Sixteen years ago an eight months  
old white baby girl was discovered in  
a small house in the Osage Indian res-  
ervation by Annt Phoebe, an Osage  
squaw, and was adopted into the tribe.  
She grew to young womanhood and  
was educated in the government In-  
dian schools in that reservation and  
became an intelligent, very pretty girl,  
petite, dark and altogether charming.  
Not knowing the parents of the girl,  
Annt Phoebe christened her Mary  
Trnegiver, giving the child her own  
name. Chief Trnegiver died and Phoebe  
married Chief Prettyhair. The  
white child was always treated with  
the greatest kindness and during the  
squaw's life the girl refused to leave  
her to rejoin the whites.

About a year ago Phoebe died. Re-  
cently Chief Prettyhair, who is possi-  
bly 70, has attempted to make the  
girl marry him, and she refused. His  
treatment of her in order to compel a  
marriage is reported cruel—so cruel,  
in fact, that the federal authorities  
were asked to interfere, and upon the  
order of the United States attorney,  
Deputy Marshals Hutchinson and Beng  
of Ponca City, at the point of Win-  
chester, took forcible possession of  
her and removed her to a place of  
safety in Ponca City, where she is  
with a white family. The federal au-  
thorities have adopted her and she is  
the government's daughter at present.  
Mr. Speed desires a good Christian  
home for her.

The Indians remember her parents,  
who came to their reservation, lived  
for some time and then mysteriously  
disappeared leaving the baby. Whether  
they abandoned the child or were

### LAST WILL.

TWO WERE FILED YESTERDAY  
IN COUNTY COURT FOR  
PROBATE.

The last will of the late Mrs. Eva  
Petter was filed for probate yesterday  
in county court. She leaves her Amer-  
ican-German bank stock to Mrs. Clara  
Romann, the undivided interest in a  
lot at Fourth and Madison to Mr.  
Frank Petter and a \$500 interest in  
other property to Mr. Joe Petter.

The will of the late Mrs. Catherine  
L. Sanders, of Vandenberg county,  
Ind., was filed here. Her Paducah  
property is to be disposed of as Mrs.  
Rosa L. Jones, of Evansville, Ind.,

murdered is not known. The Indians  
can not remember the parents' name.  
The girl's mind is rich in Indian lore,  
as well as having a fair English edu-  
cation.

### "THE HIGHLANDS OF ONTARIO" RIO FOR YOUR HOLIDAYS.

With the knowledge of what Amer-  
ica has to offer the summer tourists  
and the rest and health seeker, the  
thousands of summer travelers who  
spend their vacation in "The High-  
lands of Ontario," unhesitatingly pro-  
nounce the Muskoka Lakes region the  
ideal, the perfectly satisfying summer  
resort. Such an ideal is a combina-  
tion of two features—primeval nature  
in a perfect bewilderment of beauty,  
charm and variety, along with the fa-  
cilities for most of the modern neces-  
saries and conveniences. In addition  
to these, the even temperature, the  
high altitude (1,000 feet above the sea)  
the health giving ozone from pine,  
hemlock and fir, and the dark, soft wa-  
ters of innumerable lakes teeming  
with the gamest of fresh water fish.  
What more has a weary, nerve-racked  
man or lover of nature to desire?

Handsome illustrated, descriptive  
publications will be sent free on ap-  
plication to R. McC. Smith, Southern  
Passenger Agent Grand Trunk Rail-  
way, 124 Woodward avenue, Detroit.

Alleged Murderer Signs Will.  
Samuel Watson, a miner, arraigned  
in an Australian court on a charge of  
murder, was allowed to sign his will  
while in the prisoner's dock and just  
before being committed for trial.

### TO KEEP THE BLOOD.

WIDOW OF MURDERED MAN TO  
SAVE GREWSOME MEMENTO.

Lexington, Ky., May 7.—The local  
correspondents failed to tell the details  
of the assassination of James B. Mar-  
cum, and it was not until some staff  
reporters arrived that it was learned  
that the assassin had, after shooting  
him in the back, two up to within two  
feet of him and fired a bullet into his  
head, scattering the brains and blood  
over the doorill of the courthouse en-  
trance, where he stood in conversation  
with a friend.

Mrs. Marcum visited the scene of the  
murder, and taking her handkerchief,  
saturated it with the blood of her  
husband, which will be kept for their  
children to remind them of the assas-  
sination, that they may avenge their  
father's death. The dead man was bur-  
ied in the little cemetery after a brief  
funeral service, conducted by Rev. Dr.  
Dorris of the Baptist church.

Captain D. D. Hurst, father-in-law  
of the murdered man, was seen, and  
said: "I can not tell you who I think  
did the shooting. The officials know  
who did it, as they knew who killed  
Dr. Cox and Jim Cockrell."

### NEW PHONE.

METROPOLIS COMPANY TO BE  
CONNECTED WITH POPE  
COUNTY LINE.

Preparations are being made to con-  
nect the local telephone company at  
Metropolis, Ill., with the Farmer's In-  
dustrial of Pope county. The latter com-  
pany now has lines completed between  
Big Bay and Temple Hill, from there  
to Brownfold and from there to Rose  
Bnd. A line from the line near Tem-  
ple Hill extends to Round Knob also.  
It is their purpose to extend these  
lines on into Metropolis, Brookport  
and Galesburg and arrangements are  
perfected with all of these places but  
Metropolis.

The company uses independent in-  
struments while here and at the other  
two towns Bell transmitters and re-  
ceivers are used. For this reason it  
may be somewhat difficult for the new  
company to effect a satisfactory ar-  
rangement to connect freely with the  
local systems.

### NEARING A CLIMAX.

AFFAIRS IN THE FAR EAST SEEM  
TO FORFEND WAR.

Berlin, May 7.—Matters in the far  
East are evidently nearing a climax.  
Dispatches received today from Tokio  
show that Japan is working with fever-  
ish activity to get ready for war and  
the Russian government has ordered  
arsenals and ship yards at Vladivostok  
to work day and night.

All recent dispatches from Tokio  
agree that there is a very strong desire  
for war throughout Japan, not only in  
military circles, but throughout the  
entire population, who believe the Ja-  
panese army absolutely invincible.

The mikado, who is thoroughly  
aware of the enormous strength of  
Russia, is still holding out and has  
so far succeeded in restraining his  
warlike advisers, but it is more than  
doubtful whether he will be able to  
prevent the outbreak of war, especial-  
ly since the latest news, which shows  
that Russia is threatening Korea and  
is conducting daily maneuvers in  
which it is said several army corps  
take part.

The Russian supply of coal for the  
use of the navy at Vladivostok is said  
to be about three times as large as at  
any previous time in the history of  
the port. The Japanese ambassador at  
St. Petersburg has inquired of the  
czar's government what the warlike  
preparations in Southeastern Siberia  
mean, but the answer has evidently  
been anything but satisfactory. The  
Japanese government owns large estab-  
lishments for the manufacture of mod-  
ern small caliber rifles and cartridges  
near Tokio, and these have, during the  
last two weeks, been working 24 hours  
a day.

### FOR THOSE WHO

LIVE ON FARMS.

Dr. Bergin, Pana, Ill., writes: "I  
have used Ballard's Snow Liniment;  
always recommend it to my friends,  
as I am confident there is no better  
made. It is a dandy for burns."  
Those who live on farms are especially  
liable to many accidental cuts, burns  
and bruises, which heal rapidly when  
Ballard's Snow Liniment is applied.  
It should always be kept in the house  
for cases of emergency. 25c, 50c and

### WORKING FOR HARMONY.

SENATOR PROCTOR DISCUSSED  
MR. CLEVELAND'S PROM-  
INENCE.

Washington, May 7.—Former Pres-  
ident Cleveland's present prominence  
in connection with the next national  
Democratic convention is attracting  
attention to a large degree among pub-  
lic men now in Washington.

Senator Proctor of Vermont said  
that Mr. Cleveland's possibilities con-  
stituted the most interesting phase of  
politics today. "I believe, however,"  
continued Senator Proctor, "that Mr.  
Cleveland is not doing anything him-  
self to win this nomination, nor can it  
be possible that any of his immediate  
friends are seeking it for him. Mr.  
Cleveland's present purpose appears to  
bring about harmony in a badly divid-  
ed party, and his attitude and actions  
are altogether dignified. He will  
probably be a great power in his party  
before the next nomination for the  
presidency is made by the Democrats."

### DEATH NEAR DUKEDOM.

about 40 years, died at his home near  
Dukedom. He had been sick with  
pneumonia a few days and leaves sev-  
eral children.

### MONITOR'S RETURN

Arkansas Starts South From St.  
Louis.

Pilots Predict She Will Not Be Able  
to Reach New Orleans

The monitor Arkansas, which at-  
tracted such a large crowd to Paducah  
recently, has left St. Louis for New  
Orleans, her officers fearing that the  
receding river would not permit the  
vessel to get out to Cairo if they re-  
mained longer.

The Arkansas was convoyed by the  
steamer Dolphin No. 3, in the charge  
of Capt. John E. Leubben. Soundings  
will be made at all shoal places and  
the monitor will not venture into close  
quarters.

The towboat H. M. Hoxie of the St.  
Louis and Mississippi Valley Trans-  
portation Co., Capt. Nick Heaver in  
charge, is also under orders to go with  
the monitor and render assistance if  
necessary.

Opinions among the pilots were that  
the monitor could not get to Cairo on  
the present stage of water. Among  
those sharing this opinion were the  
pilots of the towboat S. H. H. Clark,  
who were familiar with the condition  
of the river. At this season of the  
year, however, a rise may be expected  
at any time.

The worst place is said to be at  
Devil's Island, a short distance above  
Cape Girardeau.

### CURES WHEN DOCTORS FAIL.

Mrs. Frank Chlason, Patterson,  
La., writes June 8, 1901: "I had gas-  
tritis fever in very bad form, was under  
treatment by doctors, but as soon as I  
stopped taking their medicine the fe-  
ver would return. I used a sample  
bottle of Herbine, found it helped me.  
Then bought two bottles, which com-  
pletely cured me. I feel grateful to  
you for furnishing such a splendid  
medicine, and can honestly recom-  
mend it to those suffering from mal-  
aria, as it will surely cure them."

## THE CROP CONDITIONS WOMEN WALKED OUT

Weather Has Resulted in Some Delay.

Oats and Rye Are in Good Condition, With Wheat Not Quite So Favorable.

### CONDITION OF TOBACCO CROP

Reports have been received of tobacco plants which in some sections are being attacked by insects. The last crop report reads in part as follows:

The week opened with fair, warm weather, but on April 30 light showers occurred and the temperature fell rapidly. Frosts were reported in many localities on May 1 and 2. Considerable damage was done to tender vegetables, but the extent of the injury was not great. The weather continued cool and dry during the remainder of the week. These conditions were favorable for the advancement of farm work, which had been seriously delayed by rain, but the cool weather checked the growth of all crops.

Wheat has made slight advancement and is turning yellow in many places. Oats and rye are still in good condition.

Corn planting is progressing satisfactorily, but the early planted fields are not coming up well; in many places they will have to be replanted. Tobacco plants are fairly plentiful, but are growing very slowly and have been attacked by insects in some sections.

Irish potatoes are about all planted and are beginning to come up. Gardens are late and have been injured by frosts and cold weather.

Peaches are practically a failure, but other fruits are in fair condition. Strawberries were injured in some localities by frost. Grass has grown slowly, but is in good condition. Farm work is very backward, but progressing rapidly.

Miss Elizabeth Wheeler has gone to Hopkinsville on a visit.

### ACT QUICKLY

DELAY HAS BEEN DANGEROUS IN PADUCAH.

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. Mr. T. W. Woodson of 400 South Ninth street, painter, employed with C. D. Warren, 408 1/2 Broadway, says: "Every painter is more or less troubled with his kidneys on account of the nature of his work. We all know what causes it, but how to remove it is a mystery. I tried lots of medicine and different schemes, but until I procured Doan's Kidney Pills at DuBois, Mo. & Co.'s drug store and took a course of the treatment I met with very indifferent success. They cured the last attack."

## A SAD DEATH.

Ten Year Old Boy Accidentally Killed by His Brother.

Struck in the Head By a Stray Grub and Died Soon Afterwards.

Fulton, Ky., May 7.—Mr. Dnd Jones, a farmer three miles southwest of Dndedom, was plowing and his two sons, Burnett, aged 23 and Pete, aged 10, were clearing up some ground.

The boys had been throwing clods of dirt at each other, but had quit and were at work. Burnett dug up a grub that had a sprout on it. Holding to the switch he gave the grub a sling to throw it on a burning brush pile, some ten steps away. Just as he let go, he noticed that Pete was in danger and called "look out." The child dodged the wrong way and was struck on the back of the head. He was knocked down. Burnett ran and picked him up. He began to cry and said: "You have hurt me." Then said, "I feel foolish." In a few moments exclaimed: "Oh, my head!" and within ten minutes from the time he received the blow, was dead.

### TOOK POISON.

IS WHAT RELATIVES OF REORDER BROWN CLAIM.

Pittsburg, May 7.—The body of J. O. Brown, the recorder of Pittsburg, who died suddenly just before the expiration of his term of office in April, has been exhumed at the instigation of his brother, J. H. Brown, from Nebraska. Suspicion that the late recorder ended his life by poison, according to an indirect statement of his brother, is what led to the exhumation. "The effort to prove this is said to be the first step in a contest of the will on the ground that a man who commits suicide is not sane. The future movements of Mr. Brown, however, will hinge entirely upon the report of the chemists now examining the vital organs of the body.

### COSTLY EXPERIMENT.

\$150,000 SPENT IN VAIN ON HY-MELIA CREVASSE.

New Orleans, May 7.—Work on the Hymelia crevasse, thirty-five miles above the city, which has been running for several weeks, has finally been abandoned. No further attempt will be made to mend the broken levee until the river is again within its banks. Over \$150,000 has been expended in the effort to close the crevasse. While the effort has not succeeded, the proportions of the break have been so much reduced as to materially curtail the damage done.

### LUCKY STRIKE

FOUR FOOT VEIN OF COAL STRUCK NEAR STURGIS.

Sturgis, Ky., May 7.—The United States Coal company, of which Thomas A. Nevins, of East Orange, N. J., is one of the principal stockholders, has made a lucky strike in a new vein of four foot coal.

The company proposes increasing the capacity and output and enlarging the river fleet in order to market the product south.

Mr. Nevins arrived here from New York yesterday and is greatly pleased with the outlook.

### NEW ENTERPRISES.

Mayfield, May 7.—It is reported on good authority that the big mill firm of Wilford, Stinson & Co. is soon to open a wholesale grocery house at this place in connection with its large milling interest.

It is also reported that since these parties have decided to start a wholesale grocery here Covington Bros. & Co. of Paducah will soon start a branch store at this place, from which they will do a wholesale business.

### DIED OF PNEUMONIA.

MR. FRANK SCHRAVEN'S CHILD TO BE BURIED AT JACKSON.

Edgar Cherry Schraven, aged 5 years, son of Mr. Frank Schraven of 619 South Fifth street, died last night of pneumonia and will be buried at Jackson, Tenn., where the remains were shipped this afternoon.

## WAS EXONERATED

CHARGES FLIED AGAINST OFFICER TOBE OWEN WERE UNFOUNDED.

The board of police and fire commissioners last night met and investigated charges against Officer Toke Owen. It was alleged that while on duty he went to a colored woman's house to secure some property he had been sent after, and she refused to give it up, and that he took it by force. The evidence showed that he did not exceed his authority in what he did and he was completely exonerated by the commissioners.

The matter of granting special police powers to carnival officers was discussed and the board agreed that a committee from the fire commissioners board, with Mayor Yeiser and Marshal Crow, meet with a committee of three from the carnival association and fix the number of men to be given powers. This will probably be done immediately.

Night Watchman Ellis of the I. O. shops was given special police powers.

### SCHWAB RE-ELECTED

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. ### DAILY THOUGHT.

"If you want to be unhappy, commence fretting about the future."

### THE WEATHER.

Fair and warmer today and Friday.

While it seems impossible to have passed a law requiring chickens and livestock kept up, it seems from the recent decision in county court that the present law may prevent their being turned loose.

Grover Cleveland seems to be the center of the stage in Democratic national politics just now. He cannot win from the Republicans if he is nominated, but he is the only man who ever did win since the war, and could probably come nearer it than anyone else.

It will take St. Louis a long time to wipe out the bad impression made during the dedication ceremonies last week. With mismanagement in every quarter, indifference to the most distinguished visitors and a most distressing lack of hotel and other facilities, the public is beginning to wonder what the people will have to endure when the fair opens.

There seems little left to say about the sanguinary state of affairs in Kentucky county. It appears from reports that the people most concerned in the assassination and intimidation take to it as a course of alternative, and as long as it satisfies them and the authorities do not desire to, or are afraid to, apprehend and punish the guilty, it is difficult to suggest a solution of the serious problem that confronts the peaceful class of citizens. It would seem that the only thing possible were to let them shoot and carve until their thirst for blood is satisfied, and possibly then the other people will begin to feel safe.

Kentucky Democrats will Saturday end one of the most bitter and mercurial campaigns in the history of the state. It will probably be a demonstration of what it means to back up against the party organization, which is entrenched behind years of corruption and machine rule. One by one the machine has crushed the opposition, and the knockout blow will be effectively administered Saturday, when what little opposition is left to the "state" will be vanquished. Some of those whose friends have withdrawn to keep from being slaughtered announce that they will support the ticket, but will they?

The Ohio priest acquitted of the murder of a girl in whose home he was a guest seems to have been grievously wronged by the use of bloodhounds in tracing the murderer. Dogas detectives are relics of the dark ages. While in some cases, for instance where the trail of a molefactor has not been disturbed, there is a probability of tracing him with a bloodhound, how many such cases are there? The mind that will accept as proof of guilt the dumb and often whimsical actions of a bloodhound is not one that belongs to this age of intelligence, tolerance and enlightenment. Bloodhounds are invaluable in many ways, one in that they act as a restraint on criminals, who fear them, and another that they enable officers of the law to take up a trail, especially in the country, and often locate criminals. But the case of the executed priest shows what great wrong may often be done in charging a man with a heinous crime simply because

a dumb brute happened to find his trail and followed it. The priest was in the house at the time, and the dogs were not placed on the trail for twenty-four hours after the murder, by which time he had left and gone home and hundreds of morbid people had visited the scene. The dogs happened to get his trail and followed it to his home, where he had gone, and on this flimsy evidence he was arrested.

### CHILD LABOR DISCUSSED

HOW THE NEWSBOYS' HOMES FALL SHORT OF THEIR PURPOSE.

Detroit, May 7.—At the first session today of the National Congress of Mothers reports of state presidents and state organizers were presented. Mrs. Florence Kelley of New York read the report of the committee on child labor. In her report she said, regarding child labor at night: "I, with every mother, realize that there is no state in the union that has a safe law covering this phase of the question. The strongest clause invariably says that no child will be required to perform night labor, but," she continued, "what employer will admit that he compels his juvenile employees to perform night labor?"

In her report of the employment of children on the streets, such as the newsboys and bootblacks of the large cities, Mrs. Kelley said these little folks were practically outlaws so far as any assistance they received from the newsboys' and bootblacks' homes. These institutions, she said, devoted much time to looking after the transient foreign element, and the newsboys, bootblacks and telegraph messengers only found relief in the juvenile courts and the Catholic protectorate.

### FATHER WALSER FREE.

RELEASED FROM CUSTODY AFTER INQUEST OVER BODY.

Louis, O., May 7.—Father Ferdinand Walser, arrested last Sunday morning in connection with the murder of Augustus Reichen, was brought to this city last night from the county jail at Ellettsville and discharged from the charge of murder which was placed against him at that time. Mayor King went through the formality of reading the warrant for Walser's arrest, and his attorney, E. G. Johnston entered a plea of not guilty. Prosecuting Attorney Stroup addressing his honor, said in substance:

"After having listened to the evidence presented at the inquest, I can see that there is nothing sufficient to hold the defendant. The action taken on the part of the officers in arresting Father Walser has been in accordance with their duty. A terrible crime had been committed and if the suspicion of guilt had been placed against any other person, I am sure you would have been treated as the defendant has."

Mayor King then said: "As the prosecuting attorney has remarked there was not sufficient evidence to hold the accused, I have nothing to do but discharge him from custody."

### TO INCREASE PLANT

MR. THOMAS NIVINS HERE TODAY LOOKING AFTER BUSINESS.

Mr. Thomas A. Nivins, of the New York, arrived in the city yesterday to look after his mining interests in this section. He is the man who bought a large interest in the Paducah Coal and Mining company. He will increase the plant and yesterday ordered several new barges built. He has gone to Memphis and from there returns to New York tonight. It is stated in the telegraphed reports elsewhere of a rich vein of coal struck only a day or two ago in his mines near Strazgo. The town of Thomas Nivins, formerly the Wolfolk, running in these waters, was named after him.

### WHEAT.

Chicago, May 7.—There was a steady demand for wheat during the early part of the day, but heavy selling later in the day caused quite a decline. There was much talk that the Armour element were reducing their lines and many outside longs took the tip to unload. Further reports from the winter wheat country today show quite a little damage, especially from Illinois. Some of the reports from Illinois, Missouri and Kansas are not quite so optimistic as of late, complaining that the growing crop is turning yellow. Indian Territory is complaining of dry weather, being now twenty days without rain. The close was near the lowest point of the day and sentiment was rather mixed, owing to the uncertainty position of the Armour element. Broomhall cabled today that the decrease in the world's visible should have been 9,000,000 instead of 5,000,000. The foreign visible is 216,000 greater than last year. Receipts at the primary points, 254,729, against 179,781 last year; shipments 709,332 against 535,393. North-west reported 89 cars against 101 last year, Chicago 34 cars with 30 estimated for tomorrow. Clearances 407,815.

### STOCKS.

Wall Street, New York, May 7.—After a strong opening the advance of the past few days was checked, and prices reacted considerably from the high points, being caused principally

by profit taking and the failure of the Bank of England to reduce its rate. The showing by the different roads continues good, 35 roads for the fourth week to April show a gross increase of 17.14 per cent; 74 roads for March show a net increase of 20.86 per cent. At the present rate the earnings of Missouri Pacific will net 13 per cent. The banks have gained from sub-treasury since Friday lost \$221,000. Increase in the L. and N. dividend unlikely. A New York house sends out a special saying that the earnings of Wabash for April will show the best gain of any so far this year, the net earnings for April so far show an increase of \$100,000. Town Topics says: "Hold your Missouri Pacific and B. and O. R. T. promises to be the best of the traction, and we advise its purchase. Corporate requirements in the next few weeks will make it hard to accurately forecast the bank statement, but money promises to be easy." Trading was light in volume, sales to noon being 332,900 shares. Call money ranged easy at 2 1/2 per cent.

### MINISTER ACQUITTED.

PREACHER ACCUSED OF KILLING FARM HAND DECLARED "NOT GUILTY."

Hamilton, O., May 7.—After deliberating less than forty minutes Judge Belden's jury returned a verdict acquitting the Rev. Frederick C. Wellner of the murder of James E. Hatfield, a young man of Kirby Knob, Ky., employed by Wellner as a farm hand near Miltonville.

Wellner's wife and four sisters, who were beside him, overwhelmed the defendant with tearful demonstrations of joy when the verdict was returned. Wellner took things calmly and thanked the jury.

The trial lasted 17 days. The state charged that Wellner, last November, fraudulently placed \$2,000 insurance on Hatfield's life in favor of Mrs. Wellner and then killed him with a club. The defense contended that Hatfield met his death by being run over by a farm wagon. Wellner is still to be tried for the alleged insurance fraud. His wife was a Louisville stenographer.

GOOD ENOUGH NAME

PENNSYLVANIA EPISCOPAL  
ANS OPPOSED TO CHANG-  
ING THEIR TITLE.

Philadelphia, Pa., May 7.—The pro-  
position to change the name of the  
Protestant Episcopal church was in-  
ported unfavorably by the committee  
at today's session of the convention of  
the Protestant Episcopal church of the  
diocese of Pennsylvania. Bishop Whit-  
taker in his address yesterday, proposed  
a change of name and appointed a  
special committee to consider the ques-  
tion and submit their conclusions to  
the convention. The committee re-  
commended the adoption of the fol-  
lowing resolution:

"Resolved, That, in the opinion of  
the diocese of Pennsylvania, any  
change of the name of the Protestant  
Episcopal church of the United States  
would be inexpedient."

ALDERMEN MEET

Regular Session to be Held This  
Evening.

No Business of Unusual Importance  
to Come Up.

The board of aldermen will meet in  
regular session tonight with little busi-  
ness to transact. There will be no  
new ordinances and only the old ones  
which have been given first passage  
will be brought up for action.

The ordinance providing for street  
improvements to have been pre-  
sented tonight but as the city attorney  
could not be secured to draw it up, the  
matter will go over again.

The committee will report in the  
Orow bill matter. The committee  
agreed to pay to Marshal Orow \$355  
in settlement for everything.

This is the exact amount collected  
for fees, etc., during the time James  
Collins was acting as chief. Marshal  
Orow has threatened to sue for attorney  
fees, etc., but this agreement settles  
this. The original bill was for \$407  
and Marshal Orow later offered to  
compromise for \$300.

THEATER COMPLETE

ALL BUT THE ROOF OF THE  
CASINO IS FINISHED.

The new Casino theater in Wallace  
park has been finished with the excep-  
tion of the roof, and the iron work for  
that has arrived, and by night one of  
the big trusses will be in place, and  
the other three will be put up within  
three days.

All then necessary to do will be to  
place in the chairs and remove the  
scaffolding and the handsome play-  
house will be ready for the first per-  
formance. The theater is a beauty and  
will be greatly admired. It is thor-  
oughly modern in all of its appoint-  
ments and is something the people of  
Paducah will feel very proud of when  
they see it.

county circuit court, but will wait un-  
til Judge Husbands has recovered. It  
is thought he will be able to attend  
court Monday.

Elder A. S. Patton is here from May-  
field to join a party that leaves for  
Savannah, Ga., to attend the Southern  
Baptist convention.

FOOD IN NEED.

IS A FRIEND INDEED.

Many times a school teacher in the  
middle of a heavy session requires ex-  
actly the right kind of food to rebuild  
the wasted nerve and brain tissues as  
well as to keep up the muscular energy.  
This is the business of Grape-  
Nuts, in which the starchy part of the  
pure cereals is turned to grape sugar  
and where the phosphates predomi-  
nate, making it rich in food value and  
ready for the weakest stomach to as-  
similate immediately. A lady teacher  
of Minneapolis says:

"About four years ago I realized  
that I was breaking down nervously  
in the middle of a school year. To a  
school teacher this means not only  
loss of health, but inability to go on  
with her work. Nothing appeared to  
help me and I was just about discour-  
aged when a friend recommended that  
I look into Grape-Nuts. On reading  
what this food does toward rebuilding  
brain and nerve centers I made up my  
mind to give it a fair trial.

"I ate Grape-Nuts food dry with  
cream for breakfast and enjoyed it  
greatly; my improvement began im-  
mediately and was so steady that I did  
not realize how fully I had been ben-  
efited until an extra strain came on me  
in my school work, through which I  
was able to go, continuing to improve  
all the time. Looking back on the  
trial now I realize how this wonder-  
ful food saved me from a certain  
break-down.

"I have kept up the daily use of  
Grape-Nuts ever since and have never  
had a return of the trouble. I always  
take a package with me when travel-  
ing and I look upon the food as essen-  
tial to my health as fresh air or exer-  
cise." Name furnished by Postum  
Co., Battle Creek, Mich.

WEDDING AT BENTON.

A popular young couple was united  
at Benton, Ky., this morning, when  
Mr. DeWitt Clinton Strow and Miss  
Nina Eley were married at 10 o'clock  
by Rev. N. S. Oastberry of the Bap-  
tist church. The couple had arranged  
to come to Paducah to wed, but on ac-  
count of the illness of the groom's  
father it was decided to have it in  
Benton. Mr. Strow is well known  
here and is a member of the clothing  
firm of Strow Bros. of Benton. His  
bride is a daughter of Mr. Pete Eley,  
and among her Paducah relatives is  
Marshal James Orow. The couple  
will not take a bridal tour.

STUFFED WITH DOLLAR BILLS.

ONE HUNDRED GREENBACKS  
FOUND BY A NEW JERSEY  
WOMAN INSIDE OF FOWL.

Morristown, N. J., May 7.—Stuffed  
with one dollar bills, 100 of them, was  
a turkey that has been received by  
Mrs. E. U. Adams, of this place.

The gift came from Mr. Adams,  
who had been mysteriously missing  
for seven months. Its stuffing was  
discovered when the wife started to  
prepare the fowl for dinner and it will  
be used to pay the passage of Adams'  
family to Sister Lakes, Mich., where  
Adams now resides. Adams was a  
carpenter. Just before Thanksgiving  
times were especially dull and the out-  
look for a Thanksgiving dinner was  
very slim. On the eve of the feast day  
Adams left his home, saying he would  
not return until he brought a turkey  
with him. From that time no word  
from him was received until the tur-  
key came by express. Placed to the  
neck of the bird was a note.

A new word, and one of the best we  
have seen, is offered to the public by  
the English press, "oysteria"; and  
with its suggestion of hysteria it con-  
notes the fear of typhoid from shell-  
fish. The English oysters come mostly  
from the mouth of the Thames, and  
Londoners are in the midst of one of  
their frequent typhoid scares, and  
there is a complete collapse of the oys-  
ter trade. One Billingsgate merchant  
was at the pains to secure a medical  
certificate for his oysters, setting forth  
that his beds were inaccessible to  
sewage.

## DIXON IMPROVEMENTS.

SUMMER COTTAGES ARE TO BE BUILT THERE AT ONCE.

Extensive improvements are to be made at Dixon Springs, Ill., at once, and Surveyor Wm. Martin of Metropolis is there now laying off a plat for summer cottages, which will be rented and sold by the new company that recently purchased the Springs. Dixon promises to be one of the most popular resorts in this section this summer.

## SMALL DOCKET

ONLY TWO CASES IN TODAY'S POLICE COURT.

Judge Sanders had only two cases before him this morning and court lasted only a few minutes.

Charles Johnson and Will Dobson, colored, were arraigned for vagrancy and the former's case continued and the latter dismissed.

Roy Ballowe, white, was dismissed of the charge of a breach of the peace.

## STILL UNSETTLED.

DOCKS STILL IDLE AND ALL SEEM FIRM.

There is no change in the ship carpenter and canker strike at the docks. The docks have been declared shut down by Superintendent Young Taylor and the men are all idle. The men have refused to return to work at the old price on the present work, and the proprietors seem equally as firm in their position.

## SHE WANTS HEAVY DAMAGES

A \$10,000 SUIT FILED AGAINST LEXINGTON RAILWAY CO.

Lexington, May 7—Annie B. Nash, through her attorneys, Allen & Duncan, filed suit in the circuit court here against the Lexington Railway Co. for \$10,000 damages. The petition alleges that a tin or metal advertising plate on the step of the car was loose and caused her to fall while attempting to alight from the car, severely injuring her.

## IN ROYAL SPLENDOR.

THE LATEST MERRY-GO-ROUND TO BE HERE NEXT WEEK.

Ever since the invention of the obdurate old style merry-go-round, the amusement promoters of the world have been seeking something new and many wonderful contrivances have been invented but nothing has before been seen in this country to approach the magnificent golden chariots which are to be seen on the midway of the Ferrari Bros. Carnival company. The chariots are eight in number and are operated by steam in an undulating circle nearly one hundred feet in circumference. Each chariot is most beautifully embellished with wood carvings, plate glass mirrors and elaborate gildings, which gives them the appearance they truly present—that of royal magnificence. They are upholstered in costly crimson silk plush with brass railings and twisted rods. Each is as palatial as was the royal barge of Cleopatra and seldom if ever has it been the privilege of the average man or woman to ride amid such royal splendor. Their motion is a delightful undulation, and they are invariably the central feature of the midway to which their flashing lights, dazzling gold ornamentations, glittering mirrors, harlequin trimmings, and soul-inspiring music draws thousands from all sides. The mechanical portion of the great amusement consists of three separate and distinct engines and plants. One furnishes the power to the chariots, another runs a dynamo, which makes a dazzling blaze of electric lights, while the third operates the great \$10,000 military organ which discourses melody with all the musical power of a full brass band, the latest and most popular music of the day adding to the pleasure of those who ride. The Golden Chariots will be here on the streets at the Paducah carnival May 11 to 16.

## WORLD-WIDE REPUTATION.

White's Cream Vermifuge has achieved a world-wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at DuBois, Kolb & Co.'s.

## KILLING AT CLINTON.

WILL DAVIS STABBED AND KILLED SUNDAY BY DON R. TODD.

Will Davis was stabbed to death Sunday at noon, on one of the public streets in Clinton by Don R. Todd, says the Fulton Leader. The trouble as best we can understand, came up over some family affair, in which Davis had been talking about young Todd's sister. Todd took Davis to task about the matter which brought on a personal difficulty in which Davis was slain in the side with a small pen knife. The knife went in as deep as to cut a small piece off the lower end of the heart. Davis turned around two or three times and fell dead in the street. Todd gave himself up.

## NEW MCKINLEY PORTRAIT IN THE WHITE HOUSE.

Washington, May 7—The Murphy portrait of the late President McKinley has been received in Washington and placed in the White House. The place assigned to it was at the right of the north door of the vestibule. On the left hangs the portrait of President Roosevelt, by Sargent. These are the only portraits of the presidents hanging in the vestibule.

The McKinley picture was made from a portrait, and the artist never had the advantage of noting the late President's complexion or physiognomy in life.

The portrait was purchased by an appropriation of \$2,500 made by congress for the purpose. Five artists competed for the honor of making the painting. There was much difference of opinion as to the best picture. Intimate friends of the dead president, however, gave their sanction to the Murphy portrait. These were Senator Hanna, Associate Justice Day, Abner McKinley and Representative Dick of Ohio. A number of changes were made in the painting at their suggestion.

The pose of the dead president is characteristic. In the right hand is held a sheet of paper and in the left his glasses, representing the president discussing with someone the contents of a note or letter he has just read. The fine classic features and general attire are remembered by all who knew Mr. McKinley well.

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and  
 Happening in the Reign of His August Majesty King Henry the Eighth

Re-written and Rendered into Modern English from Sir Edwin  
 Cassiodorus's Memoir

**By EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1902 and 1901, by The Brown-Merrill Company

I cannot define what it was about

Mary that made her little speeches.

Half argumentative, all pleading, so

wonderfully persuasive. Her facts

were mere fancies, and her logic was

not even good sophistry. As to real

argument and reasoning, there was

nothing of either in them. It must

have been her native strength of char-

acter and intensely vigorous person-

ality—some unknown force of nature op-

erating through her occultly—that

turned the channels of other persons'

thoughts and filled them with her own

will. There was magic in her power,

I am certain, but unconscious magic to

Mary. I am equally sure. She never

would have used it knowingly.

There was still another obstacle to

which Mary administered her favorite

remedy—the Gordian knot treatment.

Brandon said: "It cannot be. You are

not my wife, and we dare not trust a

priest here to unite us."

"No," replied Mary, with hanging

head, "but we can—can find one over

there."

"I do not know how that will be. We

shall probably not find one—at least I

fear. I do not know."

After a little hesitation she answered:

"I will go with you anyway—and

and risk it. I hope we may find a

priest." And she dashed scarlet from

her throat to her hair.

Brandon kissed her and said: "You

shall go, my brave girl. You make me

blush for my faint heartedness and

prudence. I will make you my wife in

some way as sure as there is a God."

Soon after this Brandon forced him-

self to insist on her departure, and I

went with her, full of hope and com-

pletely blinded to the dangers of our

cherished scheme. I think Brandon

never really lost sight of the danger

and almost infinite proportion of chance

against this wild, reckless venture, but

was daring enough to attempt it even

in the face of such clearly seen and

deadly consequences.

**CHAPTER XV.**

**TO MAKE A MAN OF HER.**

It was all arranged, and I

converted part of Mary's jew-

els into money. She said she

was sorry now she had not

taken De Longueville's diamonds, as

they would have added to her treas-

ure. I, however, procured quite a

large sum, to which I secretly added a

goodly portion out of my own store.

At Mary's request I sent part to Brad-

hurst at Bristol and retained the rest

for Brandon to take with him.

A favorable answer soon came from

Bristol, giving the young nobleman a

separate room in consideration of the

large purse he had sent.

The next step was to procure the

gentleman's wardrobe for Mary. This

was a little troublesome at first, for

of course she could not be measured in

the regular way. We managed to over-

come this difficulty by having Jane

take the measurements under instruc-

tions received from the tailor, which

measurements, together with the cloth,

I took to the fractional little man who

did my work.

He looked at the measurements with

twinkling eyes and remarked: "Sir Ed-

## "Lightness of a 'Dorothy Dodd'"

On the Scales

A great many interesting facts may be discovered with a pair of scales, but it is doubtful if any single fact will be more interesting and valuable to the average woman than the weight of her shoes.

For this tells her the number of ounces that must be lifted thousands of times each day, and a little calculation will show that she lifts tons of shoe leather a day—no small labor in itself.

The "Dorothy Dodd" shoe saves the lifting of more than one and one-half tons every day. A pair of "Dorothy Dodd" shoes are several ounces lighter than ordinary shoes. The feet are just so much more comfortable, and you are so much less tired. Put a pair to the test!

## HOW I LOOPED THE LOOP.

You can talk about queer sensations and being afraid and wanting to back out and all that, said E. J. Kilpatrick who came to Chicago from New York a few days ago, but let me tell you you don't know anything about it until you have a real glimpse of the happy hunting grounds. I was once up against a proposition where the people thought I was bluffing and I was bound to make good. And I made good, but when I did it I came very near changing my new summer suit for a shroud. My brother Charles Kilpatrick made himself famous by riding down the steps of the Capitol at Washington on a bicycle. He has but one leg which made his feat all the more surprising to the world. Well my brother was a fine bicycle rider. I hardly knew the difference between a bicycle and a wheelbarrow, but I went with Charlie and we traveled all over the world together. Still, I always steered clear of any kind of trick riding.

I remained in the business, however, and when some men looped the loop on a wheel, I at once took the loop and rider to England and made a tremendous hit. Still I always hired some one else to do the riding. I didn't want any of those bicycle flip flops nor the risk of being buried in foreign soil for I have always had in mind a nice little green spot on the banks of the Vermillion river.

Last summer, the Elks of Minnesota were to give a big blow out at Minneapolis. The loop the loop was to be the leading attraction. The fakirs sold loop the loop candy; men were loop the loop neckties and they even had a series of loop the loop parties. I got the loop set up all right and was waiting for my rider to come on from New York.

### RIDER WAS INJURED.

Well, after I had everything ready and had everyone keyed up to a high tension I got a telegram saying that my rider had fallen from a loop in New York and was then lying near death in a hospital. I didn't know what to do. There wasn't another man in the United States who had ever made the ride. I tried to hire a man to do it, but every fellow that got a glimpse of the loop backed away and refused to take the chance.

The managers of the blow out were frantic. They told me I would ruin the whole affair; that I had thrown them down and all that kind of thing. I told them everything would go off as billed. They asked me how I would 'make good' and I said I would ride myself. I didn't think I would at the time for I still had hopes of finding a man who would try it. But I didn't find one.

My friends heard that I was going to ride and they came and begged of me not to do it. I told them I had to try it. The time came for me to ride. I had bought a pair of green tights and had found a strong framed old bicycle. The crowd was gathered to see the feat performed. My friends made a dual plea and then I climbed up to the platform. It looked to me to be about three miles down to the base of the loop, and the runway didn't seem more than three inches wide. I went to the platform like a convicted man to the scaffold, and I just as firmly expected something tragic to happen.

### GOT A GLIMPSE OF DEATH.

When everything was ready I climbed upon the wheel, the blocks were pulled from under it, and—well I just fell from the clouds. It generally takes about three seconds to reach the bottom of the incline but it took me three months I know. My whole life unrolled before me. I saw or thought I saw all my friends down at Danville; I saw the Vermillion river and the little green spot beside it; I saw—well that's about all I did see. My breath left me; I shut my eyes and fell and fell. It seemed I never would reach the bottom, yet I instinctively knew I was traveling at a terrific pace. Then all of a sudden I felt the wheel begin rising within the loop. My eyes were still shut. Then I seemed to hang still in the air. Then I was sure I was falling. I spasmodically straightened my knees and a second more and I had crashed through the boards at the bottom of the loop. The wheel had not gained momentum enough to carry me over and I had tumbled. I got out of the hospital several days later but I have never since been upon a bicycle and I do not think I shall ever ride another one. But I satisfied the crowd at Minneapolis.

Seventy-four men have tried to do the trick but all but four have failed. Most of them have spent some time in

a hospital after the attempt. Some do it many times successfully and then get frightened and refuse to ride. Down at New York I could get no one to try it until one day a young fellow sauntered up to the loop and said he believed he could ride it. He said his name was John Wolff and he hailed from Chicago. I told him I would give him a fortune if he would ride it for twenty weeks. He tried it at once and two weeks later when he was released from the hospital he tried it again. He tore one ear loose from his head that time. Next time he smashed a shoulder. The fourth time he made the loop and repeated his success five times and then ended up in the hospital for three weeks. He is now riding at St. Petersburg and has not had an accident since he went to Europe. George Vandervort rode safely the first time and has never had a fall. Frank Mathieson, who has made the loop 200 times was laid up several times. Diavolo who was recently the sensational feature with the Ringling Show never had a fall. He has ridden 50 times and is still at it.

But I want no more of it. I would have given anything in the world to have been able to leave the bicycle any time after I had started, and I did soon leave it, and disastrously, too.
